This is a sample report. The partner and figures are illustrative, to show what Mission 10,000 partners receive. Real reports use your cohort's actual results.

About These Numbers

Employable = completed SkillUp to Work Africa with an overall grade of 80% or higher, not just enrolled. Mission 10,000's target: 20,000 graduates enrolled (2,500+ per cohort), with 50% reaching that employable bar, totalling 10,000 employable graduates by 2028. We report enrolled and employable numbers separately, every cohort, and never mix verified results with self-reported ones.
